NOTES TO UNAUDITED CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Interim Financial Statements

Our accompanying unaudited condensed consolidated financial statements of Hub Group, Inc. (“we”, “us” or “our”) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations. However, we believe that the disclosures contained herein are adequate to make the information presented not misleading.

The financial statements reflect, in our opinion, all material adjustments (which include only normal recurring adjustments) necessary to fairly present our financial position at June 30, 2009 and results of operations for the three months and six months ended June 30, 2009 and 2008.

These unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2008. Results of operations in interim periods are not necessarily indicative of results to be expected for a full year due partially to seasonality.

As of July 24, 2009, the date the financial statements were issued, no reportable subsequent events occurred.

NOTE 3. Debt

We had \$47.1 million of unused and available borrowings under our bank revolving line of credit at June 30, 2009. We were in compliance with our debt covenants at June 30, 2009.

We have standby letters of credit that expire at various dates from 2009 to 2012. As of June 30, 2009, the outstanding letters of credit totaled \$2.9 million.

NOTE 4. Commitments and Contingencies

We are a party to litigation incident to our business, including claims for freight lost or damaged in-transit, freight improperly shipped or improperly billed, property damage and personal injury. Some of the lawsuits to which we are party are covered by insurance and are being defended by our insurance carriers. Some of the lawsuits are not covered by insurance and we are defending them. Management does not believe that the outcome of this litigation will have a material adverse effect on our financial position.

NOTE 5. Fair Value Measurement

The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximates fair value as of June 30, 2009 due to their short-term nature. At June 30, 2009, cash and cash equivalents and restricted investments include \$111.5 million in a money market fund comprised of U.S. treasury securities and repurchase agreements for these securities and \$7.7 million of mutual funds, which are reported at fair value. The fair value measurement of these securities is based on quoted prices in active markets for identical assets which are defined as "Level 1" of the fair value hierarchy based on the criteria in SFAS No. 157.

NOTE 6. Restructuring Charges

In the first quarter of 2009, we recorded a restructuring charge of approximately \$0.9 million consisting of a severance charge for 115 employees. Approximately \$0.5 million of severance payments remained to be paid as of March 31, 2009.

In the second quarter of 2009, we recorded a restructuring charge of approximately \$0.04 million consisting of a severance charge for 7 employees. Approximately \$0.1 million of severance payments remained to be paid as of June 30, 2009.

All severance charges are included in salaries and benefits in the statements of income.

The following table displays the activity and balances of the restructuring reserves in the consolidated balance sheets (in thousands):

Balance at December 31, 2008	\$	-

Balance at June 30, 2009	<u>\$</u>	<u>146</u>

NOTE 7. New Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for all nonfinancial assets and nonfinancial liabilities, except for those items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We adopted SFAS No. 157 effective January 1, 2008 for all financial assets and liabilities. As of January 1, 2009, we adopted SFAS No. 157 for all non-financial assets and all non-financial liabilities. There is no impact on our financial statements at June 30, 2009.

The FASB issued Statement of SFAS No. 141(R), "Business Combinations" (SFAS No. 141(R)) in December 2007. SFAS No. 141(R) requires the acquiring entity in a business combination to record all assets acquired and liabilities assumed at their respective acquisition-date fair values including contingent consideration. In addition, SFAS No. 141(R) changes the recognition of assets acquired and liabilities assumed arising from preacquisition contingencies and requires the expensing of acquisition-related costs as incurred. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. We adopted SFAS No. 141(R) effective January 1, 2009. Any impact would be on future acquisitions.

The FASB issued Statement of SFAS No. 160, "Noncontrolling Interest" (SFAS No. 160) in December 2007. SFAS No. 160 clarifies the classification of noncontrolling interests in consolidated statements of financial position and the accounting for and reporting of transactions between the reporting entity and holders of such noncontrolling interests. SFAS No. 160 is effective as of the beginning of an entity's first fiscal year that begins on or after December 15, 2008 and is required to be adopted prospectively, except for the reclassification of noncontrolling interests to equity and the recasting of net income (loss) attributable to both the controlling and noncontrolling interests, which are required to be adopted retrospectively. We adopted SFAS No. 160 effective January 1, 2009. There is no impact as of June 30, 2009.

In April 2008, the FASB issued FASB Staff Position (FSP) No. 142-3, "Determination of the Useful Life of Intangible Assets." This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets". This statement is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We adopted FSP No. 142-3 effective January 1, 2009. There is no impact as of June 30, 2009.

In June 2008, the FASB issued a Staff Position (FSP) on the Emerging Issues Task Force (EITF) Issue No. 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities." ("FSP EITF 03-06-1"). The FSP clarified that all unvested share-based payment awards that contain non-forfeitable rights to dividends are participating securities and provides guidance on how to compute basic EPS under the two-class method. FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We adopted FSP EITF 03-6-1 effective January 1, 2009 and it had no impact on our financial statements.

In April 2009, the FASB issued Staff Position (FSP) No. 157-4, "Determining Fair Value When Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly." This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants. The FSP provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. This FSP is effective for interim or annual reporting periods ending after June 15, 2009, and shall be applied prospectively. We adopted FSP No. 157-4 effective for the quarter ending June 30, 2009. There is no impact of the adoption of this FSP as of June 30, 2009.

In April 2009, the Financial Accounting Standards Board (FASB) issued Staff Position (FSP) FAS No. 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP FAS 107-1 and APB 28-1), which amends Statement of Financial Accounting Standards (SFAS) No. 107, Disclosures about Fair Value of Financial Instruments, to require disclosures about the fair value of financial instruments for interim reporting periods, as well as annual reporting periods. FSP FAS 107-1 and APB 28-1 are effective for all interim and annual reporting periods ending after June 15, 2009 and shall be applied prospectively. The adoption of FSP FAS 107-1 and APB 28-1 had no impact on our financial statements as of June 30, 2009.

The FASB issued Statement of SFAS No. 165, "Subsequent Events" (SFAS No. 165) in May 2009. SFAS No. 165 is intended to establish general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009 and is required to be adopted prospectively. We adopted SFAS No. 165 effective for the quarter ending June 30, 2009.

EXECUTIVE SUMMARY

Hub Group, Inc. ("we", "us" or "our") is the largest intermodal marketing company ("IMC") in the United States and a full service transportation provider offering intermodal, truck brokerage and logistics services. We operate through a nationwide network of operating centers.

As an IMC, we arrange for the movement of our customers' freight in containers and trailers over long distances. We contract with railroads to provide transportation for the long-haul portion of the shipment and with local trucking companies, known as "drayage companies," for local pickup and delivery. As part of the intermodal services, we negotiate rail and drayage rates, electronically track shipments in transit, consolidate billing and handle claims for freight loss or damage on behalf of our customers.

Our drayage services are provided by our subsidiary, Comtrak Logistics, Inc. ("Comtrak"). Comtrak provides reliable, cost effective intermodal services to our customers. Comtrak has terminals in Atlanta, Birmingham, Charleston, Charlotte, Chattanooga, Chicago, Cleveland, Columbus, Dallas, Harrisburg, Huntsville, Jacksonville, Kansas City, Los Angeles, Memphis, Nashville, Perry, Savannah, St. Louis, Stockton, and Tampa. As of June 30, 2009, Comtrak owned 286 tractors, leased 20 tractors, leased or owned 555 trailers, and employed 303 drivers and contracted with 948 owner-operators.

We also arrange for the transportation of freight by truck, providing customers with another option for their transportation needs. We match the customers' needs with carriers' capacity to provide the most effective service and price combinations. As part of our truck brokerage services, we negotiate rates, track shipments in transit and handle claims for freight loss or damage on behalf of our customers.

Our logistics service consists of complex transportation management services, including load consolidation, mode optimization and carrier management. These service offerings are designed to take advantage of the increasing trend for shippers to outsource all or a greater portion of their transportation needs.

We have full time marketing representatives throughout North America who service local, regional and national accounts. We believe that fostering long-term customer relationships is critical to our success and allows us to better understand our customers' needs and specifically tailor our transportation services to them.

Our yield management group works with pricing and operations to enhance customer margins. We are working on margin enhancement projects including matching up inbound and outbound loads, reducing our drayage costs and improving our recovery of accessorial costs. Our top 50 customers' revenue represents approximately 57% of our revenue as of June 30, 2009.

We use various performance indicators to manage our business. We closely monitor margin and gains and losses for our top 50 customers. We also evaluate on-time performance, costs per load and daily sales outstanding by customer account. Vendor cost changes and vendor service issues are also monitored closely.

Revenue

Revenue decreased 26.1% to \$362.6 million in 2009 from \$490.9 million in 2008. Intermodal revenue decreased 27.7% to \$254.1 million due to a 10% decrease in volume, a 14% decline for fuel, a 3% price decrease and 1% decrease due to unfavorable mix. Truck Brokerage revenue decreased 27.6% to \$71.4 million due to a 7% decrease in volume, a 15% decline for fuel and a 6% decline due to pricing and unfavorable mix. Our length of haul for truck brokerage was down 7% or 55 miles. Logistics revenue decreased 8.6% to \$37.1 million due to customer losses from 2008 and lower sales to existing customers partially offset by new customers landed in 2008 and 2009.

Gross Margin

Gross margin decreased 23.5% to \$45.8 million in 2009 from \$59.8 million in 2008. This margin decline is primarily due to intermodal. Intermodal margin decline is due to pricing being down 3% in the quarter, lower volume and lower margin from Comtrak, our drayage company. As a percent of revenue, gross margin has increased to 12.6% in 2009 from 12.2% in 2008. The increase in gross margin as a percent of revenue is primarily due to improvement in truck brokerage yields and lower fuel revenue.

Salaries and Benefits

Salaries and benefits decreased to \$22.1 million in 2009 from \$24.3 million in 2008 due primarily to a decrease in bonus expense and headcount, and a reduction of commissions of \$0.4 million. Bonus is \$1.5 million lower due to not earning any EPS-based bonus in 2009. Headcount as of June 30, 2009 and 2008 was 1,016 and 1,086, respectively, which excludes drivers as driver costs are included in transportation costs. As a percentage of revenue, salaries and benefits increased to 6.1% in 2009 from 5.0% in 2008.

General and Administrative

General and administrative expenses decreased to \$9.1 million in 2009 from \$10.5 million in 2008. As a percentage of revenue, these expenses increased to 2.5% from 2.1%. Total expenses decreased due to reductions in outside services of \$0.6 million, travel and entertainment expenses of \$0.4 million and a bad debt expense of \$0.3 million. The reduction in outside service expenses and travel and entertainment expenses resulted primarily from an increased focus on controlling costs.

Depreciation and Amortization

Depreciation and amortization increased to \$1.1 million in 2009 from \$1.0 million in 2008. This expense as a percentage of revenue increased to 0.3% in 2009 from 0.2% in 2008. The increase in depreciation and amortization is due primarily to a decrease in the salvage value of certain assets.

Other Income (Expense)

Interest and dividend income decreased to \$0.1 million in 2009 from \$0.3 million in 2008. The decrease in interest and dividend income is a result of lower interest rates in 2009 due to investing our cash in money market funds comprised of U.S. Treasury Securities and repurchase agreements for these securities rather than commercial paper.

Provision for Income Taxes

The provision for income taxes decreased to \$5.2 million in 2009 compared to \$9.4 million in 2008 due to the overall decrease in pretax income. We provided for income taxes using an effective rate of 38.6% in both 2009 and 2008.

Net Income

Net income decreased to \$8.3 million in 2009 from \$15.0 million in 2008 due to lower gross margin.

Earnings Per Common Share

Basic earnings per share were \$0.22 in 2009 and \$0.40 in 2008. Basic earnings per share decreased due to the decrease in net income.

Diluted earnings per share were \$0.22 in 2009 and \$0.40 in 2008. Diluted earnings per share decreased due to the decrease in net income.

Revenue

Revenue decreased 22.0% to \$714.3 million in 2009 from \$915.9 million in 2008. Intermodal revenue decreased 23.7% to \$499.7 million due to an 8% decrease in volume, a 13% decline for fuel and a 3% decrease related to price and unfavorable mix. Truck Brokerage revenue decreased 26.1% to \$139.4 million due to an 8% decrease in volume, a 12% decline for fuel and an 6% decline due to pricing and unfavorable mix. Logistics revenue increased 3.1% to \$75.2 million due to new customers landed in 2008 and 2009, partially offset by customer losses from 2008 and lower sales to existing customers.

Gross Margin

Gross margin decreased 22.5% to \$90.9 million in 2009 from \$117.3 million in 2008. This margin decline is primarily due to intermodal. Intermodal margin decline was due to pricing being down, lower volume and lower margin from Comtrak, our drayage company. As a percent of revenue, gross margin has decreased to 12.7% in 2009 from 12.8% in 2008. The decrease in gross margin as a percent of revenue was driven primarily by intermodal pricing pressure. This decrease was offset partially by increased gross margin as a percent of revenue in truck brokerage.

Salaries and Benefits

Salaries and benefits decreased to \$45.2 million in 2009 from \$49.7 million in 2008 due primarily to a decrease in bonus expense and headcount and a reduction of commissions of \$0.6 million. Bonus is \$3.5 million lower in the first six months of 2009 due to not earning any EPS-based bonus in 2009. As a percentage of revenue, salaries and benefits increased to 6.3% for 2009 from 5.4% in 2008.

General and Administrative

General and administrative expenses decreased to \$19.3 million for 2009 from \$20.6 million in 2008. Total expenses decreased due to a reduction in outside services of \$1.0 million, a decrease in travel and entertainment expenses of \$0.6 million and a reduction of \$0.3 million each for office expense and outside sales commissions. The reduction in outside service expenses and travel and entertainment expenses resulted primarily from an increased focus on controlling costs. These decreases were partially offset by a \$0.7 million increase in bad debt expense. As a percentage of revenue, these expenses increased to 2.7% in 2009 from 2.3% in 2008.

Depreciation and Amortization

Depreciation and amortization increased to \$2.3 million in 2009 from \$2.0 million in 2008. This expense as a percentage of revenue increased to 0.3% in 2009 from 0.2% in 2008. The increase in depreciation and amortization is due primarily to a decrease in the salvage value of certain assets.

Other Income (Expense)

Interest and dividend income decreased to \$0.1 million in 2009 from \$0.7 million in 2008. The decrease in interest and dividend income is a result of lower interest rates due to investing our cash in money market funds comprised of U.S. Treasury Securities and repurchase agreements for these securities rather than commercial paper.

Provision for Income Taxes

The provision for income taxes decreased to \$9.8 million in 2009 compared to \$17.7 million in 2008 due to the overall decrease in pretax income. We provided for income taxes using an effective rate of 40.2% in 2009 and an effective rate of 38.6% in 2008. The 2009 effective rate was higher due to income tax law changes enacted in February 2009 by Wisconsin and California. The combined effect of the changes is approximately a \$0.4 million increase in expense.

Net Income

Net income decreased to \$14.5 million in 2009 from \$28.1 million in 2008 due primarily to lower gross margin.

Earnings Per Common Share

Basic earnings per share was \$0.39 in 2009 and \$0.76 in 2008. Basic earnings per share decreased due to the decrease in net income.

Diluted earnings per share decreased to \$0.39 in 2009 from \$0.75 in 2008. Diluted earnings per share decreased due to the decrease in net income.

LIQUIDITY AND CAPITAL RESOURCES

During 2009, we have funded operations, capital expenditures and stock buy backs through cash flows from operations.

Cash provided by operating activities for the six months ended June 30, 2009 was approximately \$30.1 million, which resulted primarily from income of \$14.5 million adjusted for non-cash charges of \$9.7 million and the change in operating assets and liabilities of \$5.9 million.

Net cash used in investing activities for the six months ended June 30, 2009 was \$1.9 million and related primarily to capital expenditures of \$2.0 million partially offset by \$0.1 million of cash generated from the sale of equipment. We expect capital expenditures to be between \$5.5 million and \$6.5 million for all of 2009.

The net cash used in financing activities for the six months ended June 30, 2009 was \$0.9 million. We used \$1.1 million of cash to purchase treasury stock partially offset by \$0.2 million of proceeds from stock options exercised and the reported excess tax benefits from share-based compensation as a financing cash in-flow.

We had \$47.1 million of unused and available borrowings under our bank revolving line of credit as of June 30, 2009. We were in compliance with our debt covenants as of June 30, 2009.

2012		675

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
