## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Plan Administrator and Plan Participants  
Hub Group Employee Profit Sharing and Trust Plan  
Oak Brook, Illinois

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the Hub Group Employee Profit Sharing and Trust Plan ("the Plan") as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2019. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019 on the basis of accounting described in Note 2.

The supplemental Schedule H, Line 4a – Schedule of Delinquent Participant Contributions (modified cash basis) and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) (modified cash basis) as of December 31, 2019 and for the year then ended have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the information presented in the supplemental schedules reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedules are fairly stated in all material respects in relation to the financial statements as a whole.

We have served as the Plan's auditor since 2005.

**NOTE 1 - DESCRIPTION OF PLAN**

The following brief description of the Hub Group Employee Profit Sharing and Trust Plan (“the Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan is a defined contribution plan established by Hub Group, Inc. (the “Company”) covering all full-time and part-time employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Contributions: Each year, participants may contribute up to 60% of pretax annual compensation, as defined in the Plan subject to certain limitations under the Internal Revenue Code (“IRC”). In addition, participants may elect to designate a portion or all of their contributions as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who are age fifty and over may also contribute catch up contributions as allowed under the IRC.

A one-year (1,000 hours) waiting period is required for employer contributions, with the stipulation that the employee must be on the payroll at December 31 of each year.

For the plan year ended December 31, 2019, the Company provided matching contributions equal to 50% of each participant’s pretax and/or Roth contributions up to a maximum of 3% of each participant’s qualified earnings or \$8,400, whichever was less.

For the plan year ended December 31, 2018, the Company provided matching contributions equal to 50% of each participant’s pretax and/or Roth contributions up to a maximum of 3% of each participant’s qualified earnings or \$8,250, whichever was less.

Catch up contributions are not eligible to be matched. The Company may also make an annual discretionary profit sharing contribution in an amount determined by the Board of Trustees. This contribution is allocated to eligible participants at the end of the Plan year based on the ratio of a participant’s compensation to the total compensation of all participants for the Plan year. No discretionary profit sharing contributions were made in 2019 and 2018.

Participant Accounts: Individual accounts are maintained for each of the Plan’s participants to reflect the participant’s contributions and related Company matching contributions, Company discretionary profit sharing contributions, as well as the participant’s share of the Plan’s income and any related administrative expenses and his or her withdrawals.

Automatic Enrollment: Effective October 1, 2013, the Plan includes a qualified automatic contribution arrangement, pursuant to which all newly eligible employees are enrolled automatically with a 6% tax-deferred contribution rate, unless the employee elects otherwise. These contributions are invested in the Plan’s default investment option. Employees may opt out of the automatic enrollment, stop contributions, modify their contribution rate, or change investment elections at any time.

Vesting: Participants are immediately vested in their contributions and employer contributions plus earnings thereon. Certain participants who were merged from a prior plan retained their previous vesting schedule with respect to employer contributions. Any forfeitures that arise are used to pay plan expenses or to reduce the employer matching contribution. As of December 31, 2019 and 2018, \$23,397 and \$8,694 of forfeitures were available to pay expenses or offset future employer contributions, respectively.

**NOTE 1 - DESCRIPTION OF PLAN (Continued)**

Payment of Benefits: On termination of service due to death, disability, retirement or termination of service due to other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments. A participant may also elect to withdraw his or her rollover contributions. Active participants may also take distributions from the plan upon attainment of the age of 59 1/2.

Hardship Withdrawals: Subject to approval by Fidelity Investments Institutional Operations Company, Inc. (the "Recordkeeper"), participants may withdraw their employee pretax contributions, to satisfy immediate and heavy financial needs, as determined by the Plan agreement.

Investment Options: Participants direct the investment of their contributions and Company contributions into various investment options including Company common stock, certain mutual fund investments, a stable value collective trust, and a self-directed brokerage account option offered by the Plan. The self-directed brokerage account includes certificates of deposit, common stock and mutual funds. Participants are able to change their investment elections on a daily basis.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions over periods ranging up to 120 months (i.e., mortgage).

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting: The accompanying financial statements have been prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. Under the modified cash basis of accounting, investments are recorded at fair value, interest and dividend income are recognized when received and benefit payments and contributions are recorded as the cash is paid or received. Administrative expenses are recorded when paid.

If the Plan's financial statements had been prepared using the accrual basis of U.S. generally accepted accounting principles, \$5,716,215 and \$4,569,639 of employer contributions receivable would have been recorded in the statements of net assets available for benefits as of December 31, 2019 and 2018, respectively. There was no liability for excess contributions refundable at December 31, 2019. A liability for excess contributions refundable of \$36,623 would have been recorded at December 31, 2018.

Use of Estimates: The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation: Investments are stated at fair value (see Note 3). Purchases and sales are recorded on a settlement-date basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Risks and Uncertainties:** The Plan provides for investments in common stock, a stable value fund, certificates of deposit and mutual funds that, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

**Notes Receivable from Participants:** Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

**Administrative Expenses:** The majority of administrative expenses are paid by the Company.

**NOTE 3 - FAIR VALUE MEASUREMENTS**

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

*Level 1:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

*Level 2:* Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

*Level 3:* Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

**Mutual funds, Company common stock and self-directed brokerage accounts:** The fair values of mutual fund investments, Company common stock and brokerage accounts are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

**Money market deposit accounts:** Fair values are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

**NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)**

*Stable value fund:* The fair values of participation units in the stable value collective trust fund are based on the net asset values per unit. Units of participation are redeemable upon receipt of unitholder's instruction based on the next determined net asset value per unit. Net asset value per unit is determined each business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	<b>Fair Value Measurements at December 31, 2019</b>

\* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS  
December 31, 2019 and 2018

**NOTE 4 - TAX STATUS**

The Plan is a Nonstandardized 401(k) Profit Sharing Prototype Plan (“Prototype Plan”) sponsored by Fidelity Management and Research Company and adopted by the Company. The Prototype Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (“IRS”) stated that the Prototype Plan, as then designed, is in compliance with the applicable requirements of the IRC. The Plan has not requested its own determination letter from the IRS. The Plan has been amended. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust was tax exempt as of the financial statement dates.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or the Internal Revenue Service. Under the modified cash basis of accounting, the Plan would disclose, rather than recognize the liability. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

**NOTE 5 - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

**NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS**

Party-in-interest transactions are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company, and certain others. The Plan invests in shares of stable value funds and mutual funds managed by the Trustee or an affiliate of the Trustee, which qualify as party-in-interest transactions.

The Plan also allows loans to participants. At December 31, 2019 and 2018, the Plan had \$3,100,804 and \$2,678,265, respectively, in participant loans, which qualify as party-in-interest transactions.

Fees paid by the Plan to the Trustee or an affiliate of the Trustee for recordkeeping, administration, loan set-up, loan maintenance, short-term redemption fees and other charges amounted to approximately \$83,945 for the year ended December 31, 2019. Investment management fees and operating expenses charged to the Plan for investments are deducted from income earned on investments and are not separately reflected. Consequently, investment management fees and operating expenses paid to parties in interest are reflected as a reduction of investment return for such investments.

At December 31, 2019 and 2018, the Plan had \$6,983,544 and \$5,743,663, respectively, invested in Company stock through a unitized investment fund managed by the Trustee. The Plan held 136,158 and 154,941 shares of Company stock as of December 31, 2019 and 2018, respectively.

These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

**NOTE 7 – SUBSEQUENT EVENT**

The Plan has evaluated, for consideration of recognition or disclosure, subsequent events and has determined that, except for matters noted below, no significant events occurred after December 31, 2019 that would have a material impact on its financial statements.

The spread of coronavirus (“COVID-19”) in the first quarter of 2020 has caused significant volatility in U.S. markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on economic activity globally, nationally and locally. The extent of the impact of COVID-19 on the Company’s operational and financial performance will depend on certain developments, including the duration and spread of the outbreak. The impact on the Plan’s investments and the amounts reported in the 2019 Statement of Net Assets Available for Benefits is uncertain and cannot be determined at this time.

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act” or the “Act”) was signed into law. The CARES Act allows retirement plan participants to have greater access to their savings if they are impacted by COVID-19, as defined in the Act. The Plan has adopted these provisions which are generally set to expire on or about December 31, 2020.
