Hub Group, Inc. Reports Second Quarter 2021 Results

Highlights:

- Strong freight market conditions and continued growth with strategic customers led to 26% revenue growth in the quarter, with growth across all lines of business
- Gross margin increase of 12%, combined with continued focus on operating efficiency, resulted in second quarter net income of \$27 million or \$0.78 of diluted earnings per share, which represents year-on-year growth of 102%
- Generated EBITDA (non-GAAP)¹ of \$69 million in the quarter, with over \$246 million in cash and cash equivalents at quarter end
- Continued to provide innovative solutions to our customers; Hub was recognized by Inbound Logistics as the #2 on the Top 10 3PL list and a Green Supply Chain Partner
- Increased expected full year 2021 diluted earnings per share to \$3.50 \$3.70

OAK BROOK, Ill., July 29, 2021 (GLOBE NEWSWIRE) -- Hub Group, Inc. (NASDAQ:HUBG) announced second quarter 2021 net income of \$26.6 million, or diluted earnings per share of \$0.78. Net income for second quarter 2020 was \$13.2 million, or \$0.39 per diluted share.

"Unprecedented freight market conditions, combined with our drive to provide a world-class customer experience resulted in 26% revenue growth in the quarter. Our continued focus on yield improvement and operating efficiency led to diluted EPS of \$0.78 in the second quarter which is double the prior year. We are honored to once again be named #2 on Inbound Logistics' Top 10 3PL list for the second consecutive year. In addition, we were recently recognized for our contribution to sustainability in the supply chain by Inbound Logistics, Food Logistics and EcoVadis," said Dave Yeager, Hub Group's Chairman and Chief Executive Officer.

Second Quarter 2021 Results

Revenue for the second quarter of 2021 increased by 26% to \$981 million compared with \$779 million for the second quarter of 2020. Operating income for the quarter was \$37 million versus \$21 million for the second quarter of 2020. EBITDA¹ (non-GAAP) for the second quarter was \$69 million.

Second quarter intermodal revenue increased 23% to \$550 million due to a 7% increase in volume and a 15% increase in revenue per load. Intermodal gross margin increased compared to the prior year as higher prices, cost recovery and volume growth more than offset increased purchased transportation costs and higher equipment repositioning costs.

Second quarter logistics revenue increased 25% to \$222 million due to growth of our retail supplier solutions services and the addition of NonstopDelivery ("NSD"), partially offset by the impact of customers lost during the pandemic. Gross margin increased due to revenue growth, the acquisition of NSD and higher prices, partially offset by higher warehousing and transportation costs.

Truck brokerage revenue grew 62% in the quarter to \$140 million due to a 55% increase in revenue per load and 5% volume growth. Contractual freight represented 51% of total brokerage volume in the second quarter of 2021 as compared to 64% in 2020. Truck brokerage gross margin increased relative to second quarter 2020 due to revenue per load growth in both contractual and transactional freight, partially offset by the impact of higher purchased transportation costs.

Dedicated revenue increased 1% compared to the prior year to \$69 million due to growth from existing and new customers, partially offset by the impact of business we exited. Dedicated gross margin decreased primarily due to higher maintenance, repair and purchased transportation expenses, that was not fully offset by growth in revenue.

Costs and expenses decreased to \$84 million in the second quarter of 2021 due primarily to lower professional fees, a decline in donation expense compared to 2020 and higher gains on the sale of equipment, partially offset by increased costs resulting from the acquisition of NSD and an increase in salaries and benefits expense related to variable compensation.

Capital expenditures for the second quarter of 2021 totaled \$17 million. At June 30, 2021, we had cash and cash equivalents of \$246 million.

2021 Outlook

We expect that our 2021 diluted earnings per share will range from \$3.50 to \$3.70. We estimate revenue will grow in the high-teens percentage range for 2021, and that gross margin as a percentage of revenue will range from 12.5% to 13.0%. We estimate our costs and expenses will range from \$355 to \$365 million for the year. We project our effective tax rate for the second half of 2021 will range from 24% to 25%.

We expect capital expenditures for fiscal year 2021 to range from \$165 to \$175 million and primarily consist of investments to support growth in the business, including containers, tractors and technology. For 2021 we expect to add 3,000 containers, which

will result in net growth of approximately 2,750 after retirements of containers that have reached end of life. We are also planning to add approximately 700 tractors to replace older units and support growth in our drayage and dedicated fleets.

Long-Term Financial Targets

Hub Group today announced a revenue target of \$5.5 to \$6.5 billion in 2025. We expect to achieve this level of revenue primarily through organic growth driven by our superior customer experience, and the technology and equipment investments we will continue to make in our business, as well as through acquisitions of non-asset logistics businesses that expand our solutions offering, add scale to our core operations and deepen our customer relationships. We anticipate long-term operating income margins of 4.0%-5.5% and EBITDA margins² (non-GAAP) of 7.5%-9.0%, with profitability benefitting from reinvestment in our business, our technology initiatives, and our continued focus on operating efficiency. A key component of this long-term growth plan is our continued commitment to our culture of innovation, service and teamwork.

Non-GAAP Financial Measure

In this press release, we present EBITDA, a non-GAAP financial measure of profitability defined as earnings before interest, taxes, depreciation and amortization. As required by the rules of the Securities and Exchange Commission ("SEC"), we have provided herein a reconciliation of this non-GAAP financial measure to the most directly comparable measure under GAAP, Net Income. Management believes that EBITDA provides relevant and useful information, which is used by our management as well as by many analysts, investors and competitors in our industry. By providing this non-GAAP measure, management intends to provide investors with a meaningful, consistent comparison of the Company's profitability for the periods presented. EBITDA should be viewed in addition to, and not as an alternative to or substitute for, measures determined in accordance with GAAP, and is not necessarily comparable to non-GAAP measures that may be presented by other companies.

Forward-Looking Non-GAAP Financial Measure

In this press release, management has presented certain forward-looking statements about the Company's future financial performance that include EBITDA margin, a forward-looking non-GAAP financial measure. This non-GAAP financial measure is defined as EBITDA as a percentage of revenue. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. We are unable to present a quantitative reconciliation of EBITDA margin to its most directly comparable forward-looking GAAP financial measure, Net Income Margin, because management is currently unable to predict with a reasonable degree of certainty the type and extent of certain items that would be expected to impact the GAAP measure without unreasonable efforts.
